

WELCOME TO CAA-B TALKS

CAA-B Talks is a Special Projects Department initiative aligned with the Civil Aviation Authority Bahamas' (CAA-B) commitment to open communication and collaboration with the aviation community.

This project seeks to bridge the gap between CAA-B and aviation stakeholders by creating a space where external parties can engage directly with the Authority, access key information, and have shared concerns acknowledged and addressed.

In addition to strengthening relationships across the sector, CAA-B Talks will serve as a valuable tool for gathering both quantitative and qualitative insights through surveys and discussion – helping inform and enhance CAA-B's operations moving forward. For more information, click [here](#).

HERE'S OUR DEPARTMENT LINEUP FOR 2025-2026
